Yellow Diva

Staple Series

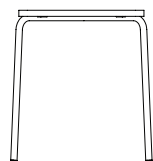

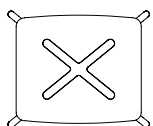

Designed by David Walley
Manufacturer Yellow Diva

Combining simplicity with a graphic injection of colour, Staple stool imbues the utilitarian seat with new stature. The timber top is cut from no nonsense film-finished FSC birch plywood. The inlaid X detail adds a pop of colour and makes a cheeky reference to the form of the leg frame beneath.

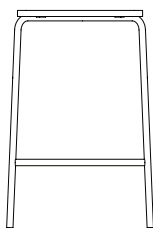

Staple stools are available in a choice of heights: low (450mm), mid (650mm) or high (750mm). Mix and match from a palette of eight nature-inspired colours. Staple low stools stack six high.

Yellow Diva products are locally manufactured in Melbourne Australia.
