## Yellow Diva

## WB Series

Designed by David Walley

Manufacturer Yellow Diva

The WB Series comprises bar stools, tables & benches inspired by traditional butcher's blocks.

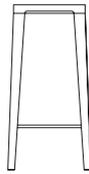

The range combines the clean lines of precision cut steel with the warmth of natural timber. Subtle details merge the junction between seat and leg, blending the transition from timber to steel. The leg frame is available in an extensive choice of powder coat colours or zinc plate finish, the solid timber tops are finished in natural oil.

Stool tops available in 2pac acrylic to match leg colour.

### Lead time

4-6 weeks

---

### Materials

Tops solid American oak  
Legs mild steel

### Warranty

3 years structural

## WBX Series (outdoor)

Designed by David Walley

Manufacturer Yellow Diva

The WBX Series of outdoor bar stools, tables & benches complement the indoor range.

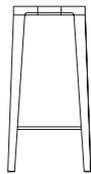

The outdoor range is suitable for extended exterior use. The stools and table tops are manufactured from solid Spotted Gum using traditional joint details for superior long term performance. The leg frame is available in an extensive choice of powder coat colours over a zinc plate substrate, or alternatively coated with a hot-dip galvanised finish. The solid timber tops are finished in exterior grade natural oil.
